

# Web Game Inhouse Usability Test Instructions

Group member:

Shengchen Zhou

Yanting Cao

In order to conduct the test, please carry out the following instructions:

1. Fill out the pre-test survey with link below, it is posted in Microsoft channel as well.  
<https://forms.gle/YR11qDLdBPEzALJT8>
2. Please start screen recording and open index.html on your browser
3. Complete these scenarios in order:
  - a. Report issue Scenario 1:
    - i. Click on “report issue” on navigation bar.
    - ii. Enter your first name, last name, e-mail and write “random” in “report your problem” section
    - iii. Click on submit
    - iv. Return to index page by clicking “return” button.
  - b. Forum Scenario 2:
    - i. Hover on “Community” on navigation bar and click on “community” in the drop-down menu below.
    - ii. Switch images to left to view different images by clicking “arrow” icon on top left.
    - iii. Click on “Game Discussion” link and check the posts below in “Forum” section.
    - iv. Enter “random” in text input and click on “reply” button on the right, you should see your reply pop below the post and the time that you submit the reply.
    - v. Fill random text in “Title”, “Paragraph here” text input section and click on “submit” button.
    - vi. Check if your post(include title, paragraph and time) shows up on top area of “Forum” section.
  - c. Game with friend list Scenario 3:
    - i. Return to index page by clicking the “WebGame inHouse” icon in Community page.
    - ii. Click on “start” on navigation bar.
    - iii. Click on icon on left side to create a room.
    - iv. In “search by school” text box on right side of page, enter “McMaster” or “UoT” and click on “search” button. (pay attention to caps lock)
    - v. Friends who satisfy filter input will show up below, click on “+” button and invite them into the room, you can see who are invited into room below as well.
    - vi. Click on “play/pause” button below the video(this video is used as sample demo of a game screen) and “Big” “Normal” “Small” button to adjust screen size.
    - vii. Click on “set volume to 50% and “set volume to 100%”.
    - viii. Click on “return” button on the right and return to index page.

- d. Setting Scenario 4:
  - i. Click on “Settings” on navigation bar.
  - ii. Try different buttons and customize page’s color theme, font size and font style.
- 4. Stop screen recording.
